## EXPERIENCE

### VC Intern

Windrose Capital, Pune

July 2023 - present

- Conducted thorough market research on emerging technologies and market trends to guide investment decisions
- Developed a comprehensive understanding of the workflow within venture capital firms, along with strong analytical, problem-solving, and communication skills through rigorous evaluation of technology trends.

### Project Intern

Integrated Active Monitoring, Pune

Feb 2023 - April 2023

- Collaborated with the TAG ID project team, ensuring that businesses could efficiently track their inventories in real-time.
- Analyzed inventory data to identify items with limited sales potential, enabling businesses to make informed decisions about managing excess stock effectively by creating dead stock report.

## PROJECTS

### MyStockBoard

Stocks Investment dashboard and visualizer

<https://github.com/surajpict/MyStockBoard>

- Techstack: ReactJS, MongoDB, HTML, CSS, NodeJS
- MERN stack application to keep track of investments by classifying portfolio stocks in categories like largecap, midcap and smallcap. Also, allows user to add or remove stocks from portfolio and analyze distribution of money invested in different stocks with help of doughnut chart using ChartJS library

### CryptoPedia

Track crypto currencies daily

<https://github.com/surajpict/CryptoPedia>

- Techstack: ReactJS, HTML, CSS
- Website to keep track of popular cryptocurrencies and give real time updates fetched through API
- It retrieves information such as current prices, trading volumes, and market capitalizations for different cryptocurrencies. The data is displayed on the screen in an organized and user-friendly format
