Work experience

Software Development Intern   *March 23 – June23*
TwinIOT   *Mumbai, India*

- Design and Developed Restful API's for different modules in the project as per the requirement.
- Implemented Data Access Layer (DAL) using Spring Data and Hibernate ORM tool.
- Utilized Spring MVC framework to implement design patterns like IOC(Dependency injection), Spring DAO(Data access objects), ORM Mappings.
- Working on a project called SyntHeim, which is a social networking service for photo and video sharing and storage.

Projects

SuperDuperDrive

A Simple storage web application with three user-facing features: Simple File Storage, Note Management, Password Management.
The back-end with Spring Boot (Managing user access with Spring Security,Handling front-end calls with controllers,Making calls to the database with MyBatis mappers)
The front-end with Thymeleaf

Hostel Management System

A software developed for managing various activities in the hostel.
Followed the MVC design pattern for developing the system.
Used SpringMVC along with Spring Security for creating all the validations and client-side functionality

Technical skills

Programming Languages/Frameworks/Tools	Java,C++,SQL,Servlet,JSP,SpringCore,Spring Boot,SpringMVC,Hibernate,Struts,Lombok, Microservices,RestfulWebservices,Git/Github, Docker,Postman,PostgreSQL

CourseWork

Undergraduate	Database Management Systems,Object Oriented Programming,Data Structures and Algorithms,Advance Java
