EDUCATION

SCTR's Pune Institute of Computer Technology   Expected 2024
BE in Electronics and Telecommunications; GPA: 7.82/10

KULBHUSHAN JR. COLLEGE AURANGABAD M.C   March 2020
12th; Percentage: 72.15

NAVAJIVAN VIDHYLAY ROHINKHED   March 2018

10th:93%

SKILLS

C++ , Javascript   , HTML ,CSS , SQL , DBMS , OS , OOP , CN ,JAVA, Basic AIML

EXPERIENCE

Project Intern   MAY 2023 - JUNE 2023
PICT   *PUNE,MAHARASHTRA*

- Created E-commerce Website and deployed it on cloud.

- Created virtual machine using EC2 instance

Project Intern   JULY 2022 - SEP 2022

                                                                                                            PUNE,MAHARASHTRA

PROJECTS

WEB-CHAT-APP
Developed and implemented real-time web chat application using modern technologies, facilitating seamless communication and collaboration among users. Demonstrated strong proficiency in full-stack development, user authentication, and real-time data synchronization.

Study of Deep Learning for Implementation of Sign Language Recognition Conducted comprehensive research on implementing sign language recognition using deep learning techniques, showcasing expertise in computer vision and neural network models.

RESUME PARSER. (ML,PYTHON,HTML,CSS)
Developed and implemented a Resume Parser using natural language processing (NLP) and machine learning techniques. The parser efficiently extracts key information from resumes, such as contact details, work experience, skills, and education, and converts them into structured data.

CODING PROFILES

LeetCode: 7219401735   GeeksForGeeks: hvishafkzl
Codeforces: VISHAL HARNE   CodeChef: vishalharne
